# GOOD ROADS EVERYWHERE

## FOUR FOLD SYSTEM OF HIGHWAYS

### NATIONAL HIGHWAYS, STATE HIGHWAYS, COUNTY ROADS, TOWNSHIP OR TOWN ROADS

If the smallest unit within a State is the County, and there are no Townships, then the System becomes Three Fold—  
National, State, County,—thus omitting the Township roads if there are none.

FREDERIC REMSEN HUTTON, M.E., Sc.D.  
General Secretary

MORGAN, LEWIS & BOCKIUS, Philadelphia  
General Counsel

Population of SOUTH DAKOTA, 583,888, or 100% of the total;  
distributed among 68 counties, or 100% of the total  
Contiguous population served, 462,368, or 79% of the total;  
located in 50 traversed counties, or 73% of the total  
Adjoining population served, 121,520, or 21% of the total;  
located in 18 adjoining counties, or 27% of the total  
Total population served, 583,888, or 100% of the total;  
located in 68 counties, or 100% of the total  
Mileage of Public Roads in South Dakota, 56,354. Mileage of  
proposed National Highways, 2,520, or 4.47% of the total  
Therefore, 4.47% in National Highways will serve, in traversed and  
adjoining counties, 100% of the people in the State.

These National Highways will also act as State Highways and as County Roads and Town or Township Roads for the localities through which they pass. Their building and maintenance by the National Government will thus relieve the State, the County, and the Town or Township of the cost of building and maintaining these trunk highways, and give each and every one of them one, two, three or more principal highways, as the case may be, built and maintained free of expense to the local community. The funds of the State, the County, and the Town or Township can therefore be used for their other and secondary roads less costly to build and maintain.

Similar maps of other States are being prepared by the Association, and will be issued as rapidly as possible.

National Highways Preliminary Map  
of the State of  
**SOUTH DAKOTA**  
Showing  
TWENTY-FIVE HUNDRED MILES OF  
**NATIONAL HIGHWAYS**
